

Support

Rest assured that no one can match us. How many companies do you know that can offer support at times when you need it most? Your business isn't 9-5, so why should your support be?

We offer support from 10am – 11pm Monday to Friday and 4pm till 11pm on Saturdays and Sundays. No need to wait endlessly on the phone, fast and free support is available. Unlike our competitors we don't compromise on support.

We also offer fast free updates such as menu changes and or website redesign at no extra cost. Even though it's FREE we can still offer fast turnaround on all updates. Happy? See if any other company can beat that! (Small updates can be done instantly).

Our system allows us to make changes without even ever coming to your premises. Real time support is common in this industry and since our team are highly qualified we can easily solve any such issues without much delay.
